INTRODUCTION · AUSTRALIAN ROAD SASETY

THE ROAD AHEAD

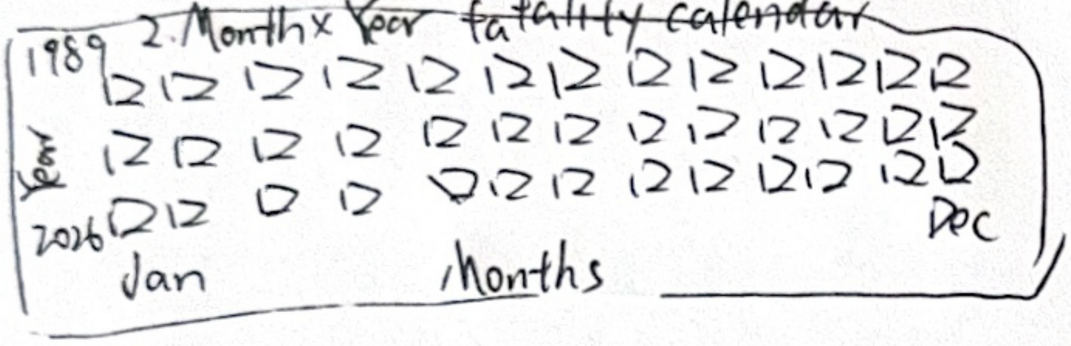

Australia's roads are far safer than .....
Where has progress stalled, who faces risks ... ?

① A long decline - then a stubborn plateau

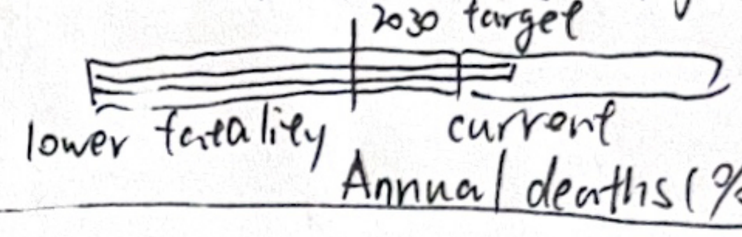

1. Fatalities & Rate, 1989-2025

2. ~~Month x Year fatality calendar~~

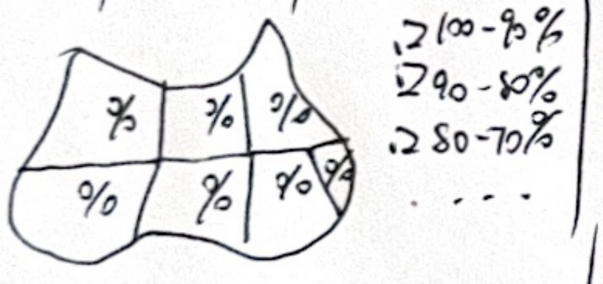

3. Distance from the 2030 target

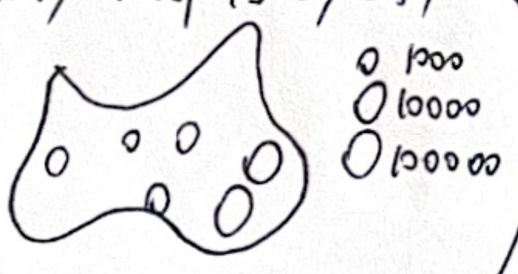

② Risk depends on where the road runs

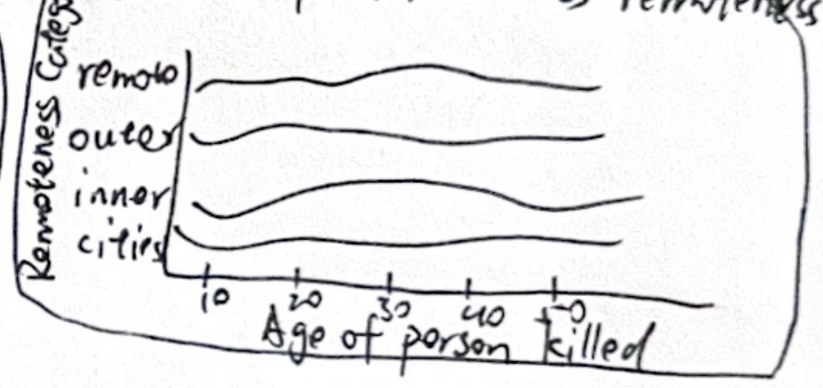

4. Fatality rate by state

5. Fatality hotspots by SA4

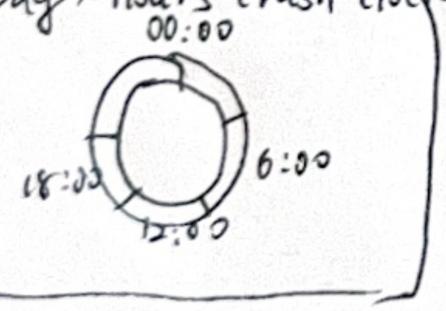

6. Risk profile across remoteness

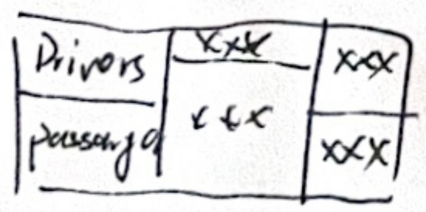

③ The dange has a clock - and a human face

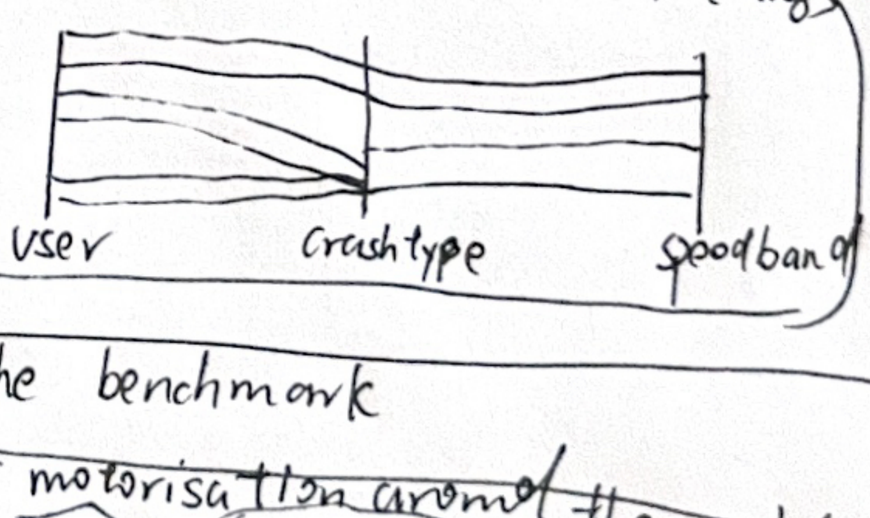

7. Day x hours crash clock

8. Who is lost on the road?

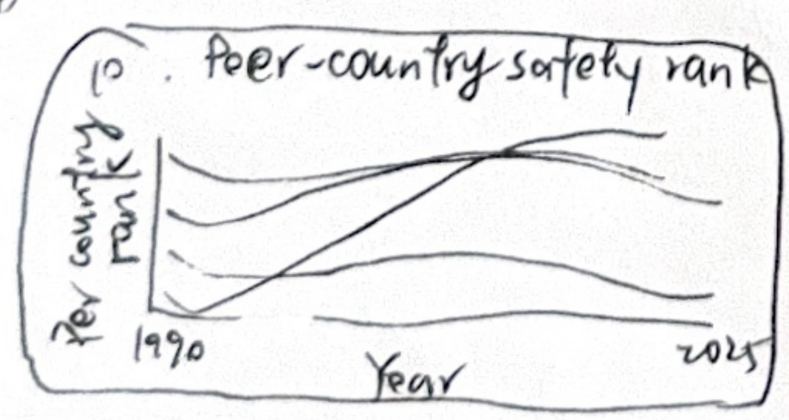

9. From road user to crash setting

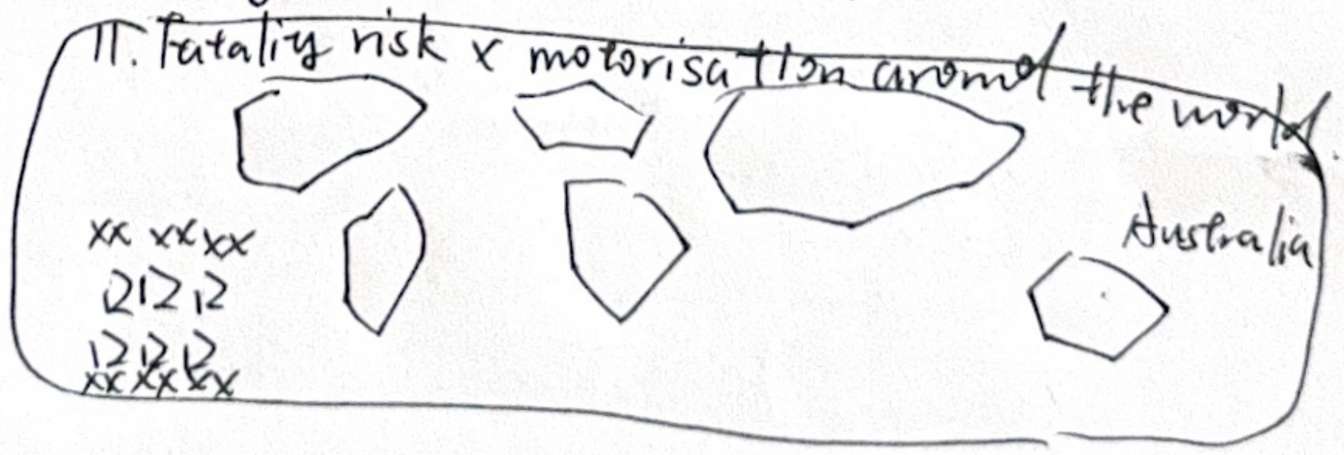

④ Australia in the world : safer than many, not the benchmark

10. Peer-country safety rank

11. Fatality risk x motorisation around the world

⑤ Conclusion - the next gains will not come evenly
